

# Swedish National Debt Office

---

*Anders Björnemalm*

*Head of IT*

# We manage the central government debt

- Our goal is to do this at the lowest possible interest costs without assuming too high risks
- We sell government bonds and treasury bills to pension funds and other investors to finance central government debt
- A small proportion is financed by lottery bonds and savings accounts for private savers

# Facts

- We process over 4600 billion SEK in our systems every year.
- 800 000 SEK per second during office hours (8-17)
- 1500 government internal bank users
- 400 000 private savers
